

Funding Application Form: Structure and Guidance
Great Salt Lake Water Delivery Program ***(Voluntary Water Transactions)***

All proposals were due by 11:59 PM on January 16, 2026.

Consult the [FAQ document](#) which outlines detailed background information for your reference.

Question No.	Question	Question details
General Project Information		
1	Project Title	Project title
2	Lead Applicant	Please provide the name and nature of the Lead Applicant (including tax status and nature of organization)
3	Lead Applicant Contact Information	Name and Title
		Mailing Address
		Phone Number
		Email Address
4	Project Partners	List any project partners
5	Project Narrative	ABSTRACT: Please provide a short summary of the proposed lease including specifications on whether the lease is for new inflows or existing inflows to Great Salt Lake. (maximum 1,000 words)

6		Are you proposing a lease of water right(s), water share(s), or both? • If leasing a water right(s), please provide the associated water right numbers. • If leasing shares, please provide the name(s) of the mutual irrigation company/companies to which they belong: • If shares, please provide proof of ownership of your shares (share certificate). [Attachment] • If leasing shares, please provide the Letter of Support from the mutual irrigation company board indicating that they are supportive of the proposed lease, conditioned upon their review and approval of any associated change application(s).
7		How many acre-feet of water are you proposing to lease?
8		How much funding (in total) are you requesting in order to lease this water to the Office of the Great Salt Lake Commissioner? This should be the total dollar amount you are seeking for the lease.
9		Please provide a brief justification for the total dollar amount you are requesting for leased water. (i.e. how was the value of the water determined?)
10		What is your proposed lease term or proposed range of possible terms?
11		What is the priority date of this water?
12		Please describe the hydrologic path you foresee this water flowing through to get to Great Salt Lake, including references to any measurement infrastructure that can be used to verify the delivery of the leased volume of water, if possible.
13		If this water is used for irrigation, is the irrigated property subject to an agricultural assessment by the county assessor? (i.e. does the property currently have "greenbelt" status?) • If yes, please provide the parcel number for the irrigated property.

14		Is this lease paired with a GSLWDP system conservation and/or ecosystem & habitat project proposal? (An example may be choosing to lease water that would otherwise be subject to non-use as a result of the construction of another GSLWDP project.) Please describe the path you foresee the water would need to follow in order to reach Great Salt Lake.
15		Please disclose any potential conflict(s) of interest, including those relating to, but not limited to: Office of the Great Salt Lake Commissioner, Bureau of Reclamation, or any of the following agencies which are represented on the GSLWDP Evaluation Committee: • Office of the Great Salt Lake Commissioner • Utah Department of Natural Resources • Utah Department of Agriculture and Food • Utah Division of Water Rights • Utah Division of Water Resources • Utah Division of Wildlife Resources • Utah Division of Forestry, Fire, and State Lands • Governor's Office of Planning and Budget • Great Salt Lake Watershed Enhancement Trust
16		Have you completed a pre-consultation with the Utah Division of Water Rights? • If so, please provide a summary of what was discussed during the consultation.
17		Have you begun preparing a change application to file in the case that your lease proposal is selected for funding? • If so, please describe the current state of the change application:
18		What beneficial uses (type, quantity, months during which use occurred, etc.) has this water supplied in the past five years? This information is only requested in order to determine potential savings of consumptive use that may result from leasing this water.

19	Supporting Documents	Attach any supporting documents, preferably as PDFs (i.e. maps, graphs, engineering plans, specifications, reports, etc.)
By submitting this proposal, you understand that: • The proposal must demonstrate connectivity to the Great Salt Lake Watershed. • The proposal must comply with NEPA as is applicable to the proposal.
